About us

Reflect, repent and make BSC and POM great again!

Reflect Doge is a community driven multichain project with a safe contract and burned liquidity, designed for moon thru well-designed tokenomics and utilities backed by the most based names on the BSC and POM thriving DeFi community.

Fairly low taxes and an immutable renounced contract, liquidity is locked forever (burned) so feel free to trade away and enjoy your free Xs from the Native Reflections.

Community driven so don't forget to share the links and call for the culture chads
